

EARN FREE PRODUCT

Get free product shipped to you each month!

All you have to do is earn a minimum of \$75 in CDBs¹ in a month, from at least three customers², and you qualify for free product.³ Earn \$150 in CDBs in a month, and have a choice from among more expensive products.³

Each month you earn those CDB/customer minimums, we'll send your free product. Do it every month and never pay for your product again!

Here's how it works: First, log into your back office and let us know what product you want sent.⁴ You'll select from a list of available products for both Tier 1 (\$75 CDB) and Tier 2 (\$150 CDB) products. And tell us to what address you would like the product shipped.⁴ Then simply recruit your customers and have them place their orders on your shopping cart. We'll handle the rest. If you've met the Tier 1 or Tier 2 requirement in the month, we'll ship your free product around the 20th of the following month.

Earn \$150 in personal CDBs and you will have met your monthly CV requirement also. That means no pressure to buy product every month.

¹ CDB is the Customer Differential Bonus. It is earned when customers purchase product from your website. The CDB value for any given product is the difference between the wholesale and retail price of the product.

² Orders generating the CDBs, must originate from at least three (3) unique customer accounts.

³ Requirements are subject to change.

⁴ Once logged into your back office, click on "Manage Free Product" on the "ORDERS" menu. Set your "Tier 1" and "Tier 2" product from the list of available products in the dropdown box. Provide your shipping address by selecting from a list of available shipping addresses on your account, or enter a new address. You only have to set your profile once. The products will ship as long as you keep meeting the requirements. You can change your product selection or shipping address at any time, and the changes will be effective the next time the free product shipments are processed.

NuChallenge GOLD Pack... one of the Tier 2 products available.
